

TracLinks in reStructuredText

This document is for testing the ..trac:: directive. The page is written like

```
{{{  
#!rst  
  
Examples  
...  
...  
}}}
```

This is a list of example uses of the *trac* directive, providing use of TracLinks in WikiRestructuredText.

```
Examples  
=====  
  
trac role  
=====  
Syntax is ``link``:trac: or :trac:`link`, and could be put anywhere in the text. 'link' has to  
be a valid Trac link.  
  
``In the middle of my text `WikiFormatting`:trac: see!!!!``  
    In the middle of my text `WikiFormatting`:trac: see!!!!  
  
or  
  
``In the middle of my text :trac:`WikiFormatting` see!!!!``  
    In the middle of my text :trac:`WikiFormatting` see!!!!  
  
wiki  
=====  
``.. trac:: WikiFormatting``  
    .. trac:: WikiFormatting  
  
``.. trac:: wiki:WikiFormatting``  
    .. trac:: wiki:WikiFormatting  
  
``.. trac:: wiki:WikiFormatting WikiFormatting``  
    .. trac:: wiki:WikiFormatting WikiFormatting  
  
``.. trac:: wiki:WikiFormatting LinkText``  
    .. trac:: wiki:WikiFormatting LinkText  
  
tickets  
=====  
  
``.. trac:: #1``  
    .. trac:: #1  
``.. trac:: #1 ticket one``  
    .. trac:: #1 ticket one  
``.. trac:: ticket:1``  
    .. trac:: ticket:1  
``.. trac:: ticket:1 ticket one``  
    .. trac:: ticket:1 ticket one  
  
reports  
=====  
  
``.. trac:: {1}``  
    .. trac:: {1}  
``.. trac:: {1} report one``
```

```

.. trac:: {1} report one
``.. trac:: report:1``
    .. trac:: report:1
``.. trac:: report:1 report one``
    .. trac:: report:1 report one

changesets
=====
``.. trac:: [42]``
    .. trac:: [42]
``.. trac:: [42] changeset 42``
    .. trac:: [42] changeset 42
``.. trac:: changeset:42``
    .. trac:: changeset:42
``.. trac:: changeset:42 changeset 42``
    .. trac:: changeset:42 changeset 42
``.. trac:: foo``
    .. trac:: foo

files
=====
``.. trac:: browser:/trunk/trac``
    .. trac:: browser:/trunk/trac

The leading ``/`` can be omitted...

``.. trac:: repos:trunk/trac trunk/trac``
    .. trac:: repos:trunk/trac trunk/trac
``.. trac:: source:trunk/trac Trac source code``
    .. trac:: source:trunk/trac Trac source code

``.. trac:: browser:trunk/README``
    .. trac:: browser:trunk/README
``.. trac:: repos:trunk/README trunk/README``
    .. trac:: repos:trunk/README trunk/README
``.. trac:: source:trunk/README README in trunk``
    .. trac:: source:trunk/README README in trunk

Note that if ``hoo`` is a file, the link targets its revision log. In order to see the file's co
```

```

``.. trac:: browser:/trunk/README#latest latest of trunk/README``
    .. trac:: browser:/trunk/README#latest latest of trunk/README
``.. trac:: repos:trunk/README#42 trunk/README in rev 42``
    .. trac:: repos:trunk/README#42 trunk/README in rev 42

```
