

Port Status

This platform is supported as of [830].

Supported devices

The following hardware devices are supported and are implemented as generic class-centric drivers:

- I2c
- UART
- GPIO
- SPI
- JTAG debugger interface

On these devices may be stacked other hardware-independant drivers.

Testing

This port was mainly tested? on the [Olimex SAM7-EX256](#) development board. It features the following board gadgets:

- LCD (Nokia 6610: s1d15g00 or pcf8833)
- Joystick, buttons
- SD/MMC slot, with FAT support
- UART
- JTAG debug interface
